CANVAS GICLÉE

The Giclée process enables printing directly onto museum-quality canvas material, so prints will not separate over time. There are three different mounting options: **Canvas Wrap**, **Canvas Stretch/Staple**, and **Canvas Board**. Protective spray coating is applied to the surface of each print to help prevent scratches and other damage.

- **Canvas Wrap** prints are a stylish, low-cost alternative to traditional framing wherein the print is wrapped around a stretcher frame so that 1 3/4" of the photo's edges are visible on the sides of the frame. Delivered display-ready with hanging hardware attached.
- **Canvas Stretch/Staple** mounting is a unique way to display your images like a fine art canvas. The print is stretched to the edge of a 3/4" thick wooden frame, and stapled around the edges, leaving the full image on the front. Suitable for framing.
- **Canvas Board** prints are mounted onto sturdy Gator Foamboard, a very rigid foamboard and lightweight backing with a white finish.

THINWRAP FLOATS

Beautiful metallic print with smooth satin laminate neatly wrapped around sturdy, 3/16" masonite board. Each ThinWrap comes backed with two 3/4" thick lightweight foam blocks with holes drilled for easy hanging. The mounting blocks hold the print away from the wall for a contemporary float effect. ThinWraps 16x20 and larger are wrapped around Gatorboard, and prints 11x14 use masonite.

METALPRINT FLOATS

MetalPrints are created by infusing dyes directly into specially coated aluminum sheets, creating truly archival works of art. These MetalPrints showcase a revolutionary new medium that is highly durable, waterproof, weatherproof, and ultra scratch-resistant. The high-gloss sheen gives your photos a vibrant luminescence with incredible detail and resolution. Each MetalPrint comes backed with two 3/4" thick lightweight foam blocks and aluminum plate with drilled holes for easy hanging. When hung, these stunning prints will float off the wall. Each print has rounded corners for your safety and the surface can be easily cleaned with any commercial glass cleaner.
